

The luxurious Master offers six comfortable seats and unique hydrotherapeutic possibilities. Master's complex body massage by means of sophisticated sets of water and air jets is without competition. It offers three pairs of seats, different in shape and jet equipment. Besides the jets configurations based on classic massage techniques, Master is equipped with a series of other water and air jets focussed on the other important body parts – thighs, knees, calves, soles of feet.

Comfortable pillows are another pleasant detail.

Master
