

The concept of the Rondo is characterized by simple elegance and consistent compliance with ergonomics. The sets of water and air jets are designed for therapy (it is not only fun like a whirling water but real therapy). There are several places to offer back massage, emphasizing the problematic lumbar parts. The jets are embedded in special cascades. Rondo has a central panel in the base with jets for the massage of the soles of your feet. The massage power can also be controlled by the Turbo Boost System.

Rondo

Shell Dimensions	200 x 200 x 82,5 cm
with Frame	200 x 200 x 95 cm
Water Capacity	980 l
Spa Weight – dry / filled	270 / 1250 kg
Shell	MassiveShell Construction
